**Limitations in plant occurrence information -
current implications and future challenges**

Dr. Carsten Meyer

German Centre for Integrative Biodiversity Research

Carsten Meyer graduated from the University of Göttingen with a diploma in Biology in 2010. He did his PhD on limitations in global information on species occurrences at the University of Göttingen under supervision of Prof. Holger Kreft. During this time, he spent several months at Yale University under supervision of Prof Walter Jetz. After this PhD, he did several months of postdoctoral studies at the German Centre for Integrative Biodiversity Research, and under supervision of Prof. Walter Jetz at the Department of Ecology and Evolutionary Biology at Yale University. From November 2016 onwards, he will take up the position as leader of his research group "Macroecology & Society" at the German Centre for Integrative Biodiversity Research (iDiv) in Leipzig, where he will focus on studying the underlying socioeconomic drivers of global biodiversity change.

时间：2016 年 10 月 28 日上午 10:00—11:00

地点：北京市海淀区香山南辛村 20 号

中国科学院植物研究所新实验楼二楼 E202
