

Serial Reports No. 2023-7

Integrating effects of animal dispersers into forest regeneration

Speaker: Dr. Finn Rehling
University of Freiburg

Time: 9:30 am May 12, 2023

Venue: W301, Mudan Building

Person to contact: Liu Xiaojuan(刘晓娟), 62836051

Brief Introduction of Speaker

Dr. Finn Rehling was graduated from the Department of Conservation Ecology, Faculty of Biology, University of Marburg in 2021. Currently, he is serving as a postdoctoral fellow at the University of Freiburg and scientific coordinator of the Chinese-German research unit MultiTroph project. His research focuses on ecological and evolutionary processes which maintain the diversity of species and their interactions in a human-dominated world, with the goal to harmonize the well-being of people and nature.
